Linolenic Acid Content	Premium
Less than or equal to 3.0%	\$.60 per bushel
Greater than 3.0%	\$.00 per bushel

Varieties Accepted

Vistive brand low linolenic varieties

Pioneer brand low linolenic varieties

Low Linolenic Bean Information

Low linolenic beans contain three percent linolenic acid compared to typical eight percent traditional soybeans.

Processing low linolenic beans result in producing a specialty oil that is low in trans fatty acids (trans fats).

These low trans fat oils benefit food companies in producing healthier food products
